

Animus Core — Global Strategic Master Order Form

Global Enterprise License Agreement ("Global ELA")

1. Order Form Identification

FIELD	DETAIL
Order Form ID	ANM-OF-2026-GSM-[NNN]
Commercial Tier	Global Strategic Master Agreement — Global Enterprise License Agreement (" Global ELA ")
Order Effective Date	[ORDER EFFECTIVE DATE]
Offer Expiry	This order form lapses if not countersigned by Licensee within thirty (30) calendar days of the date Licensor issues it.
Licensor	Animus Technologies Private Limited, a company incorporated under the Companies Act, 2013, having its registered office in India (CIN: [CIN — to be inserted upon issuance of the Certificate of Incorporation]), operating under the "Animus Core" brand (" Licensor ")
Licensee	[CLIENT LEGAL ENTITY NAME], a [ENTITY TYPE] organized under the laws of [JURISDICTION] (" Licensee "), on behalf of itself and its Affiliates
Master Agreement	Animus Core Pilot Evaluation & Commercial License Agreement between Licensor and Licensee dated [MASTER AGREEMENT DATE] (the " Master Agreement ")
Designation	This order form designates a Global Strategic Master Agreement for the purposes of Master Agreement §3.1.

2. Incorporation & Order of Precedence

2.1 This order form is issued under, and incorporates, Section 3 of the Master Agreement, including Sections 3.1 (Global Strategic Master Agreement — Enterprise Master License Grant), 3.2 (Proprietary Technology, Trade Secrets & Clean-Room Protection), 3.3 (Committed Term, No Termination for Convenience & Fee Acceleration), and 4–9. Capitalized terms not defined here have the meanings given in the Master Agreement; "Affiliate" has the meaning in Master Agreement §3.1(a).

2.2 If this order form conflicts with the Master Agreement, this order form governs for the licensed scope below, except that nothing in this order form weakens Sections 3.1(c)–(f), 3.2, 3.3, 4, or 5 of the Master Agreement unless it expressly says so by section number.

2.3 Licensee is responsible for every Affiliate's compliance with the Master Agreement and this order form, and for payment of all Fees. No Affiliate has any right to enforce this order form directly, and Licensee's payment obligations are not reduced by the acts, omissions, divestiture, or insolvency of any Affiliate.

3. License Grant & Licensed Scope

3.1 Grant. Subject to payment of the Fees and compliance with the Master Agreement, Licenser grants Licensee and its Affiliates a non-exclusive, non-transferable, non-sublicensable license during the Term to install and use the Software in object-code form for their internal production trading, market-data, risk, and surveillance operations, within the Licensed Scope.

3.2 Licensed Scope — Global Enterprise Master License.

DIMENSION	ENTITLEMENT
Entities	Licensee and its Affiliates, as defined and bounded by Master Agreement §3.1(a)
Desks, pods, strategies, asset classes	All — every trading desk, pod, strategy team, and asset class of Licensee and its Affiliates
Regions	All regions globally, subject to Master Agreement §§3.1(e) and 9.4 (export control and sanctions)
Co-location & data-center sites	All sites operated by or for Licensee and its Affiliates, including without limitation: CME Group Aurora (Aurora, IL), Equinix NY4 (Secaucus, NJ), Equinix LD4 (Slough, UK), and Equinix SG1 (Singapore)
Production nodes / CPU cores / threads / packet volume	Unlimited and unmetered, with no per-node or per-core license tracking (Master Agreement §3.1(b))
Redistribution	None. Internal use by Licensee and its Affiliates only — redistribution requires a separate OEM / Redistribution agreement
Source access	Escrow / read-only audit access under §7

3.3 License Files. Each deployed node receives its own RSA-2048-signed, hardware-fingerprint-bound License File under Master Agreement §2.2, issued under this single order form. Entitlement is tracked at the master-agreement level: Licensee shall keep a register of entities, sites, and node fingerprints relying on this license and provide it to Licensor on request, no more than once per calendar year (Master Agreement §3.1(a)).

3.4 Affiliate changes. An entity that ceases to be an Affiliate loses its license rights automatically (Master Agreement §3.1(a)) and must cease use within thirty (30) days. Ceasing to be an Affiliate does not reduce the Fees. Newly acquired Affiliates are covered on written notice to Licensor.

4. Fees & Payment

4.1 Fees.

ITEM	AMOUNT (USD)
Monthly equivalent	\$40,000
Annual Contract Value (ACV) — Committed Fees for the Initial Term	\$480,000

4.2 Billing. Unless Licensee elects Option A at signature, Licensee is billed under the default Monthly Billing Schedule (Schedule B):

	OPTION	PAYMENT	TERMS
☐	Standard — Monthly in advance	\$40,000 per contract month × 12 = \$480,000	See Schedule B
☐	Option A — Annual prepayment	\$456,000 (the \$480,000 ACV less a 5% prepayment discount of \$24,000), in one payment	Invoiced on the Order Effective Date; due Net-30

The 5% discount under Option A is conditional on payment in full by its due date; if Option A is not paid when due, the Monthly Billing Schedule applies to the Initial Term and Licensor may re-invoice accordingly.

4.3 Delivery on payment. Licensor will issue production License Files within two (2) business days after receipt of the first payment. The Term, and Licensee's obligation to pay the Committed Fees, begin on the Order Effective Date regardless of when Licensee or any Affiliate requests or installs License Files.

4.4 Currency, settlement & taxes. All amounts are in USD, payable by wire transfer via SWIFT or Fedwire to the account stated on Licensor's invoice, and are invoiced to and payable by Licensee alone (not by individual Affiliates). Fees exclude all taxes. Licensee bears all wire, correspondent-bank, and currency-conversion charges. If Licensee is required by law to withhold tax, it shall withhold only at the applicable treaty

rate on receipt of Licensor's treaty documentation, furnish official receipts, and increase the payment so that Licensor receives the full invoiced amount.

4.5 No contingency. Licensee confirms that it has completed its evaluation of the Software. The Fees are not contingent on any acceptance test, benchmark result, latency threshold, future functionality, regional rollout, or Licensee's deployment timetable.

5. Term, Non-Cancellation & Fee Acceleration

This §5 restates, and is in addition to, Master Agreement §3.3.

5.1 Initial Term. Twelve (12) months from the Order Effective Date (the "Initial Term"). The Initial Term is firm, non-cancellable, and non-refundable. The full \$480,000 Committed Fees (or \$456,000 under Option A) is an unconditional payment obligation of Licensee from the moment this order form is executed; the Monthly Billing Schedule governs only the timing of payment.

5.2 No termination for convenience. Licensee may not terminate this order form, or reduce the Licensed Scope, for convenience at any time. Non-use or reduced use of the Software; withdrawal from any site, region, desk, or pod; discontinuation of any project or strategy; divestiture of any Affiliate; a change in budget or strategy; or a change of control of Licensee does not reduce, suspend, or excuse any payment.

5.3 Fee acceleration. If Licensee (a) gives notice of, or purports to effect, early termination or cancellation; (b) gives written notice that it and its Affiliates will cease or have ceased using the Software, or that the program for which the Software was licensed has been discontinued; (c) fails to pay an undisputed installment within ten (10) business days after written notice of non-payment; (d) has this order form terminated by Licensor for Licensee's (or an Affiliate's) uncured material breach; or (e) becomes subject to insolvency or analogous proceedings — then every unpaid monthly installment for the entire remaining Initial Term (or then-current Renewal Term) immediately accelerates and becomes due and payable in full within ten (10) business days of Licensor's written demand. Master Agreement §3.3(e) applies to the accelerated amount.

5.4 Sole exception. Acceleration does not apply, and Licensee receives a refund of prepaid fees for the period after termination, only where Licensee terminates for

Licensor's material breach left uncured for thirty (30) days after Licensee's detailed written notice, as set out in Master Agreement §3.3(f).

5.5 Renewal. After the Initial Term, this order form renews for successive twelve (12)-month Renewal Terms under Master Agreement §3.3(h), unless either Party gives written notice of non-renewal at least ninety (90) days before the end of the then-current term. Each Renewal Term is itself firm and non-cancellable.

6. Deliverables, Support & Engineering

6.1 Deliverables. Production builds of the Animus Core engine for each supported platform, the public C-ABI header interface, the nanobind-based zero-copy Python bridge, and the *replay_bench* benchmark verification harness, as described in Licensor's Institutional Enterprise Term Sheet §3, for deployment across the Licensed Scope.

6.2 Engineering scope. Everything in the Institutional Enterprise tier (custom wire-schema engineering and kernel-bypass/NIC architecture consulting), plus one (1) structured custom kernel/FPGA optimization engagement per contract year, scoped in a written statement of work to Licensee's own reference hardware, of up to [NUMBER] engineering days. The sub-40ns baseline performance characterization extends to custom hardware (FPGA bitstreams, SmartNIC drivers) only once that environment has been co-designed and validated under that engagement.

6.3 Support. Dedicated Slack Connect channel and priority email, handled directly by Licensor's Founder & Chief Architect. Licensor will use commercially reasonable efforts to give an initial response to Severity-1 incidents within two (2) hours during Licensor's coverage hours of 07:00–21:00 IST, Monday–Friday (01:30–15:30 UTC). Incidents raised outside coverage hours — which include most of the US trading session at CME Aurora and NY4 — are handled from the start of the next coverage window. This is a best-efforts target, not a guaranteed service level, and carries no service credits. Extended or 24/7 coverage is available only under a separately priced support addendum.

6.4 Maintenance. Quarterly optimization and compatibility releases (compiler, kernel, and instruction-set updates) during the Term at no additional charge.

7. Proprietary Technology, Escrow & Audit Access

7.1 Protections. Master Agreement §§3.1(c)–(f), 3.2, 4, and 5 apply in full. Without limiting them, Licensee acknowledges that the lock-free ring-buffer data structures, invariant-TSC timestamping routines, and cache-line memory layouts of the Software are Licensor's Proprietary Technology; that the non-public elements of it, and all source made available under §7.2, are Licensor's trade secrets; and that the clean-room covenant in Master Agreement §3.2(d) binds Licensee, its Affiliates, and their contractors during the Term and for eighteen (18) months after it ends.

7.2 Escrow / read-only audit access. Under Master Agreement §3.1(c), Licensor will make the Software's source available to Licensee's internal compliance, risk, or security audit function on a read-only basis, through [a third-party source-code escrow arrangement with an agreed escrow agent / a controlled read-only inspection environment hosted by Licensor] (select one before execution), solely for internal security, memory-safety, and concurrency verification.

7.3 Audit access conditions. Access under §7.2 is limited to no more than [NUMBER] named individuals, each of whom must be an employee of Licensee or an Affiliate, be identified to Licensor in advance, and sign an individual acknowledgment of Master Agreement §3.1(d) and §3.2. No copying, extraction, compilation, modification, or derivative work is permitted beyond what Master Agreement §3.1(c)(i) allows. Licensee shall promptly notify Licensor of any actual or suspected unauthorized access, copying, or disclosure.

7.4 Anti-fork covenants. The anti-fork, non-derivation, non-compete, and non-disclosure covenants of Master Agreement §3.1(d) apply to Licensee and every Affiliate, contractor, and individual given access under §7.2.

8. Governing Law & Disputes

Master Agreement §9.2 applies: laws of India; SIAC arbitration seated in Singapore, one arbitrator, English language; either Party may seek interim or injunctive relief from a court of competent jurisdiction, including to enforce §5 or §7.

Schedule A — Licensee Program Details

FIELD	DETAIL
Ultimate parent entity	[ENTITY NAME, JURISDICTION]
Initial Affiliates relying on this license	[LIST — informational; the Affiliate definition governs]
Initial deployment sites	CME Group Aurora; Equinix NY4; Equinix LD4; Equinix SG1; [OTHER]
Program owner (business contact)	[NAME, TITLE, EMAIL]
Technical lead	[NAME, TITLE, EMAIL]
Audit access mechanism (§7.2)	[Escrow agent / Read-only inspection environment]
Named audit personnel limit (§7.3)	[NUMBER]
Annual engineering engagement cap (§6.2)	[NUMBER] engineering days

Schedule B — Monthly Payment Schedule

INSTALLMENT	CONTRACT MONTH	INVOICE ISSUED	DUE	AMOUNT (USD)
1	Month 1	Order Effective Date	Net-15 from invoice	\$40,000
2	Month 2	15 days before Month 2 begins	Net-15 from invoice	\$40,000
3	Month 3	15 days before Month 3 begins	Net-15 from invoice	\$40,000
4	Month 4	15 days before Month 4 begins	Net-15 from invoice	\$40,000
5	Month 5	15 days before Month 5 begins	Net-15 from invoice	\$40,000
6	Month 6	15 days before Month 6 begins	Net-15 from invoice	\$40,000
7	Month 7	15 days before Month 7 begins	Net-15 from invoice	\$40,000
8	Month 8	15 days before Month 8 begins	Net-15 from invoice	\$40,000
9	Month 9	15 days before Month 9 begins	Net-15 from invoice	\$40,000
10	Month 10	15 days before Month 10 begins	Net-15 from invoice	\$40,000
11	Month 11	15 days before Month 11 begins	Net-15 from invoice	\$40,000
12	Month 12	15 days before Month 12 begins	Net-15 from invoice	\$40,000
Committed Fees				\$480,000

Each invoice is issued fifteen (15) calendar days before the contract month it covers begins (Month 1 is invoiced on the Order Effective Date) and is due Net-15 from the invoice date. All installments are subject to acceleration under §5.3.

Signature Block

By signing, each Party agrees to this order form and the Master Agreement it incorporates. Licensee specifically acknowledges §5 (firm, non-cancellable twelve-month term and fee acceleration) and §7 (audit-access restrictions and anti-fork covenants).
